

KEVIN VAN DER BURGT

FREELANCE SOFTWARE ENGINEER/CONSULTANT

CONTACT DETAILS

Dronten, The Netherlands
+31 6 58 99 00 55
kevin@pokeit.nl

ABOUT KEVIN

Senior fullstack developer with over a decade of experience in various programming languages and cloud platforms. Strong in scalable architectures, security, and performance. Analytical, pragmatic, and quality-focused.

LANGUAGES

Dutch (native)
English (fluent)

PROGRAMMING...

TypeScript, JavaScript, PHP, Golang, C#, Java, Kotlin, C++, C.

TOOLS AND SOFTWARE

Agile/Scrum, Linux, macOS, Windows, Docker, k8s, MySQL, PostgreSQL, Redis, MongoDB, Grafana, Prometheus, Tailscale, Proxmox, Affinity, Figma, Claude Code, Codex.

WORK EXPERIENCE

Poke IT, Dronten — Freelance

MARCH 2013 – PRESENT

My primary tasks involve supporting various SME software projects. Additionally, I work on greenfield projects, IT infrastructure, cloud environments, and security tests. For a complete overview, visit the website at pokeit.nl/diensten.

TypeScript · Node.js · React · React Native · Docker · PostgreSQL

BumaStemra, Hoofddorp — Freelance Software Engineer

JANUARY 2026 – PRESENT

Contributed to the further development and modernization of BUMA/STEMRA's copyright platform, which supports music authors and publishers in registering works, managing rights, and distributing royalties. The development took place in a full-stack TypeScript environment with React on the frontend and a NestJS/GraphQL backend, where I contributed to various parts of the platform to improve functionality, user-friendliness, and reliability.

TypeScript · Node.js · NestJS · GraphQL · Monorepo · PostgreSQL · Redis · React · Kubernetes · Azure

Hostbit B.V., Dronten — Cofounder

JULY 2025 – PRESENT

Developing a custom hosting platform for web hosting, domain names, and deployable Docker images. Managing various Linux machines and setting up monitoring.

Golang · TypeScript · React · Node.js · Next.js · PostgreSQL · Docker · Prometheus · Ansible

Registratietools B.V., Soest — Cofounder

AUGUST 2024 – PRESENT

Development of a React Native app for Android and iOS that allows work orders to be automatically filled out via connected Bluetooth devices.

TypeScript · React Native · Node.js · PostgreSQL · External APIs · Hardware integration

Energie Excellent, Den Haag — Freelance Software Engineer

MAY 2024 – NOVEMBER 2024

Contributed to the expansion and optimization of an energy system that helps organizations strategically and cost-effectively purchase energy. The development mainly took place in Laravel.

PHP · TypeScript · Laravel · MySQL · Docker

Van Wijnen, Harderwijk — Full-time Software Engineer

APRIL 2021 – APRIL 2024

Contributed to the implementation and expansion of integrations within the iPaaS platform, securely and reliably connecting various internal and external systems.

TypeScript · Node.js · Microsoft Azure · DevOps · Software Integrations · GCP (Google Cloud Platform)

Versio B.V., Zwolle — Full-time Lead Software Engineer

APRIL 2019 – APRIL 2021

Maintaining PHP legacy software and building a new platform in Laravel with multiple developers, where I was the project lead. We created the new website in Next.js, which was connected to the legacy system.

PHP · Laravel · TypeScript · Next.js · MySQL · Docker · Redis · DirectAdmin · SIDN · DNS Servers

Reviced B.V., Meppel — Freelance Software Engineer

SEPTEMBER 2012 – NOVEMBER 2018

Just before the migration to a new platform, built and maintained a data synchronization tool. Also developed a complete hosting management system including the website, and built and maintained various modules and integrations for the platform.

PHP · Laravel · Vagrant · MySQL · Docker · Redis · DirectAdmin · SIDN · DNS Servers · Open Stack · Proxmox · PowerDNS

Fun fact: This resume was generated using code, check out the code on GitHub.
